Subject: Request to conduct a National level seminar jointly with your organization.

Sir,

It is well known fact that microfinance through SHGs has gained prominence, as they have achieved success in poverty alleviation, financial inclusion, empowerment of women and in the overall improvement in the rural livelihood scenario. Most of the researchers' also advocate the same that it has significant impacts on the above mentioned facts. So, we think that there is true need for more discussions and arranging more seminars in this regard to focus on the workability of microfinance.

In this respect, it is our great honour to announce that the department of Economics and department of Social Work in collaboration with IQAC Sonamukhi College are interested to organise a seminar on the topic "Role of commercial banks in microfinance through SHGs" with joint sponsorship (as your CSR activity) and collaboration of your organization on 15th June 2023 or any other suitable date later.

In this regard, we also request you to take part in the lecture series and share your expertise on the topic. Your knowledge would be an excellent addition to the programme.

Your consideration will be highly appreciated. Hope such a seminar will put forward a set of policy recommendations for the up gradation of our economy.

It's our great honour to announce that the Department of Economics in collaboration with the Department of Social Work and IQAC Sonamukhi College are jointly going to organize a National Level Seminar on the theme "**Role of Commercial Banks in Microfinance through SHGs**" scheduled to be held on 7th and 8th September 2023.

I would be grateful if you take part in the Seminar as a resource person on 7th September and share your expertise on the topic with our participants. Your knowledge would be an excellent addition to our programme. The Seminar brochure and programme schedule will be communicated to you very soon.

Thanking you.

Sincerely yours'

One Day National Seminar On “Chemical and Environmental Sciences, Emerging dimensions and Challenges Ahead” organised by Department of Chemistry & IQAC, Sonamukhi College in association with Indian Photobiology Society, Kolkata. Dated-18/10/2023.

1. Title of the Seminar: Chemical and Environmental Sciences, Emerging dimensions and Challenges Ahead

2. Organized By: Department of Chemistry & IQAC, Sonamukhi College

3. Association With: Indian Photobiology Society, Kolkata

4. Collaborating Agency: Partially Sponsored by Sourav’s Scientific Company & Sreekrishna Traders

5. Date: 18th October, 2023

6. Venue: Seminar Hall (F2), Sonamukhi College

7. Number of Participants: 50 (Fifty)

8. Funded By: Sonamukhi College, Sourav’s Scientific Company & Sreekrishna Traders

9. Level: National

10. Details of Resource Persons:

I. Prof. Nitin Chattopadhyay, Jadavpur University, Kolkata

II. Prof. Chittaranjan Sinha, Jadavpur University, Kolkata

III. Dr. Susovan Bhowmik, Dept. of Chemistry, Bankura Sammilani College, Bankura

IV. Dr. Himadri Acharya, Associate Professor, Dept. of Chemistry, Assam University

Objective:

The main objective of the seminar was to provide a platform for experts, researchers, and students to exchange knowledge, discuss recent advancements, and address key issues in the field. It aimed to foster collaboration, promote awareness of environmental challenges, and encourage the development of sustainable solutions through the lens of chemical sciences.

Basic objectives of the seminar –

1. To facilitate the exchange of knowledge and expertise among participants in the areas of Chemical and Environmental Sciences.
2. To provide a platform for researchers to present and disseminate their latest findings, fostering discussion and feedback.
3. To increase awareness about current issues and challenges in Chemical and Environmental Sciences, promoting a deeper understanding among participants.
4. To engage students by providing a platform for them to interact with experienced professionals, fostering their interest and understanding of the subject matter.

Outcome:

Resource person from different organizations, faculty from different institutions and our students were registered for this seminar. Moreover, few faculty members of this college were also participated. All resource persons as well as our students and faculty members shared their valuable work and experiences through the paper and poster presentations. Valuable and fruitful discussions and presentations in different field like “Attitude of Learning and Teaching”, “Emergent requirement of Life on Land and in Water”, “Sustainable living with Di-oxygen and Water”, “Synthesis of Helicenes”, “Synthesis of N-dropped Carbon Nano Dots from Amino Acid and Vitamin-C” and especially in the field of chemical and environmental sciences were thoroughly discussed.

As we conclude, this seminar was very much relevant in context of the recent scenario of the earth and environment. The synergy between Chemical and Environmental Sciences is our compass for navigating towards a sustainable and harmonious future. In this respect thanks to all participants, and their contributions propel us towards a world where science serves as a beacon of hope for the planet.

Objective:

To aware the adjacent villagers about the importance of biodiversity conservation
Aware people about how the problem of Man-Animal conflict can be avoided

Outcome:

Improved the Man-Animal conflict in Sonamukhi block of Bankura District.

Villagers knows responsible use of forest and its resources which can impact of livelihood and sustainable development

Man-Animal Conflict is a complex interaction between humans and animals. This awareness programme is an attempt to address the critical issues of Man-Animal Conflict in the Sonamukhi block of Bankura District. In addition, this would focus on the impact it creates on livelihood and sustainable development. In this block, the increasing human population density and the changing land-use patterns are continuously reducing the naturally dwelling place of the wild animals, specially Elephants. In retaliation, the elephant herds destroy crops, houses, and even kill people. Forest authorities play a crucial role in mitigating this ever-increasing issue. This awareness campaign aims to educate the local community on responsible land use, fostering harmony between human activities and wild life habitats for a better future and co-existence.

Sub: Invitation as a Resource Person for an Awareness Campaign on February 6, 2024

Respected Sir,

With immense pleasure, we would like to inform you that the Dept. of Zoology, Sonamukhi College, Bankura in association with IQAC of the College is going to organize an awareness campaign among forest adjacent villagers of Sonamukhi on "Man-Animal Conflict, Livelihood and Biodiversity Preservation" sponsored by West Bengal Biodiversity Board (Department of Environment, Government of West Bengal). The above programme is scheduled to be held on February 6, 2024 at 11.30 am in the seminar hall of Sonamukhi College.

In this regard it would be our great pleasure if we can have you as the sole resource person for the day.

We humbly request you to accept the invitation and make the programme a successful event. A line of acknowledgement from your end would be greatly appreciated.

Thanking you
With warm regards

সচেতনতামূলক কর্মসূচি মানুষ-বন্যপ্রাণী সংঘর্ষ

উদ্যোগে
প্রাণিবিদ্যা বিভাগ, সোনামুখী কলেজ
সহযোগে
আইকিউএসি, সোনামুখী কলেজ

সৌজন্যে

পশ্চিমবঙ্গ জীববৈচিত্র্য বোর্ড
পরিবেশ অধিদপ্তর, পশ্চিমবঙ্গ সরকার

- মানব-বন্যপ্রাণী সংঘর্ষ মানুষের সাথে বন্যপ্রাণীর এমন সম্পর্কে বোঝায় যেখানে মানুষ ও বন্যপ্রাণীর পারস্পরিক ক্রিয়া-প্রতিক্রিয়ার ফলে মানুষ ও তার সম্পদের ওপর ক্ষতিকর প্রভাব পড়ে; একইভাবে বন্যপ্রাণীদের অস্তিত্ব ও আবাস ঝুঁকির মুখে পড়ে।
- সাধারণত জনসংখ্যা বৃদ্ধি পাওয়ার ফলে বন্য প্রাণীরা তাদের বিচরণস্থল বা আবাস থেকে উচ্ছেদ হলে এ সংঘর্ষের সূত্রপাত ঘটে। মাত্র একটি পক্ষই এ সংঘর্ষে ক্ষতিগ্রস্ত হয় তা নয় বরং আবাসন সংকট বা সম্পদ সংকটে উভয় পক্ষ ক্ষতিগ্রস্ত হয়।
- বাঁকুড়ার বিস্তীর্ণ এলাকা জঙ্গলমহলের মধ্যে পড়ে, যেখানে অনেক হাতির বাস। অনেক সময় পাশের জেলা বা রাজ্যের জঙ্গল থেকেও হাতি ঢুক পড়ে আবাসিক এলাকায়। বিপদে পড়েন মানুষজন। বেঘোরে প্রাণ হারাতে হয় তাঁদের। অনেক সময় প্রাণে বাঁচলেও ঘরবাড়ি নষ্ট হয়, জমির ফসল নষ্ট হয় হাতির হামলায়।
- বিশেষজ্ঞদের মতে, বন্যপ্রাণীদের সঙ্গে মানুষের সাক্ষাৎ যত কম হবে, বন্য প্রাণীরা তত স্বাভাবিক থাকবে। কিন্তু হাতির সঙ্গে তা এখন সম্ভব হচ্ছে না। বনের এক অংশ থেকে অন্য অংশে যাওয়ার পথে মানুষের সঙ্গে অবস্থিত সাক্ষাৎ হচ্ছে।
- জেলার গ্রামাঞ্চলের অধিকাংশ মানুষ বনজ জ্বালানি কাঠের উপরে নির্ভরশীল। তাছাড়া মহুয়া ফুল সংগ্রহ, ছাতু সংগ্রহ ইত্যাদি নানান প্রয়োজনে মানুষকে জঙ্গলে ঢুকতেই হচ্ছে।
- আমরা জানি হাতি জঙ্গলের প্রাণী, জঙ্গলে থাকাই তার পছন্দের। জেলার জঙ্গলে হাতির স্বাভাবিক খাদ্যের উপস্থিতি প্রায় নেই।
- স্বাভাবিক নিয়মে খাদ্য আর জলের প্রয়োজনে তাকে জঙ্গল থেকে বের হতে হচ্ছে।

মানব-বন্যপ্রাণী সংঘর্ষের ফলাফল

- মানুষের মৃত্যু * বন্যপ্রাণীর মৃত্যু * গৃহপালিত পশুপাখির মৃত্যু * ফসলের ক্ষয়ক্ষতি * সম্পত্তির ক্ষয়ক্ষতি
- * মানুষের আঘাতপ্রাপ্তি * বন্যপ্রাণীর আঘাতপ্রাপ্তি

প্রতিকার ও প্রতিরোধ

- সংগঠিত ফসল সুরক্ষা * আয়রক্ষামূলক বেড়া * অরুচিকর ফসল চাষ * বাইরে থেকে পশুখাদ্য সরবরাহ * বন্য প্রাণী স্থানান্তর * সমস্যামুক্ত বন্য প্রাণী অপসারণ * ক্ষতিপূরণ এবং বীমা * ভূমি ব্যবহার পরিকল্পনা *

গৃহীত প্রতিরোধমূলক ব্যবস্থা

- বাঁকুড়ার সমস্ত বন বিভাগে একটি "বিশেষ মানব-বন্যপ্রাণী সংঘর্ষ প্রশমন সেল" গঠন
 - রেঞ্জ পর্যায়ে বিশেষ টাস্ক ফোর্স গঠন
 - স্থানীয় প্রশাসন, এফপিসি ও বন দপ্তরের সমন্বয় সাধন
 - হাতির চলাফেরা ইত্যাদি সংক্রান্ত মাইকিং
- বাঁকুড়ার সমস্ত বন বিভাগের হাতি প্রভাবিত এলাকায় এফপিসি সদস্য এবং ছল্লা পার্টি কে বীমা কভার

To celebrate National Science Day 2014 on 28.02.2024, Department of Physics, Sonamukhi College organized a webinar. Following is the report of the event with all supporting documents.

At first Dr. Saikat Dalui, Assistant Professor of Physics and Jt. Convenor of the webinar has welcome the resource person, Mr. Dhrubajyoti Chattopadhyay, District Science Officer, Purulia, our Honourable Principal Sir, Dr. Bappaditya Mandal and all the participants of the webinar. Then our Principal Sir in his speech discussed the significance of the National Science Day and gave the permission to continue with the webinar. After this Mr. Dhrubajyoti Chattopadhyay, our resource person delivered his talk on the topic "Unveiling the untold: Exploring hidden dimensions of Sir C.V. Raman's legacy". It was a very informative and interesting talk for the participant of the webinar. At the end, Dr. Saikat Basu, Assistant Professor of Physics & Convenor of the webinar conveyed vote of thanks to resource persons and all the other participants.

Following are the necessary documents related to the webinar.

Flyer of the event

The flyer features a background image of a college building. At the top, it says 'Webinar to celebrate National Science Day 2024'. Registration Page

The screenshot shows a Google Forms registration page titled "National Science Day, 2024 Registration". The form is hosted on a Google Drive link. The header includes "Questions", "Responses", and "Settings" tabs. The main content area features a header image of a person looking at a starry night sky. Below the image, the form title "National Science Day, 2024 Registration" is displayed, followed by the sender information: "Department of Physics, Sonamukhi College, Sonamukhi, Bankura 722207". A note states: "This form is automatically collecting emails from all respondents. Change settings". The form contains three input fields: "Name" (Short answer text), "WhatsApp No" (Short answer text), and "Designation" (Radio button selection with "Student" as the visible option). A vertical toolbar on the right side of the form provides options for sharing, printing, and other actions. The browser's address bar shows the Google Forms URL, and the Windows taskbar is visible at the bottom.

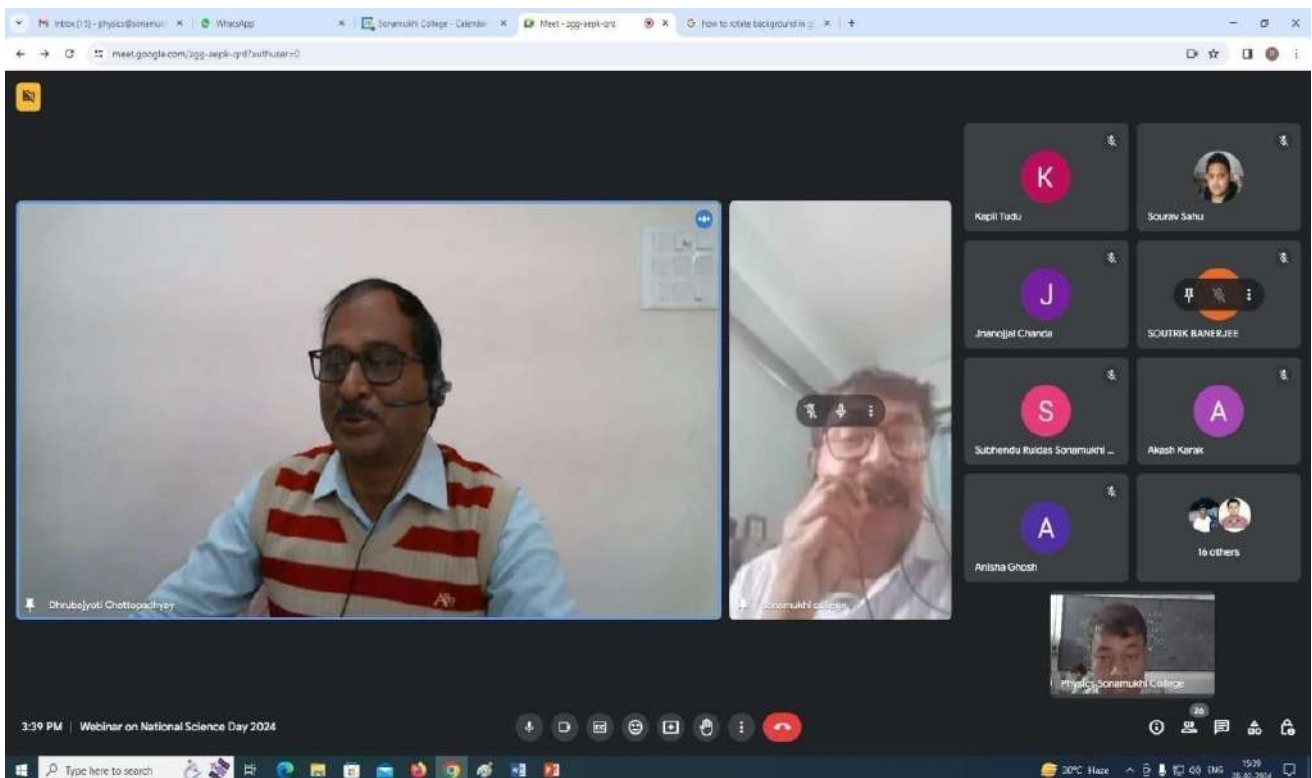

Mark on the Calendar

The screenshot displays a Google Calendar interface for February and March 2024. A meeting event titled "Webinar on National Science Day 2024" is highlighted, showing it is scheduled for Wednesday, February 28, from 3:20 to 4:50 PM. The event details include a "Join with Google Meet" link, a meeting ID, and a note to "Take meeting notes". The location is listed as "Sonamukhi, West Bengal 722207, India". The event is organized by "Organize Office - Edil" and includes five guests: "Principal@sonamukhicollege.ac.in", "Jnanajal Chanda", "Sankat Dasul", "Sankat Basu", and "Physics Sonamukhi College". The "Going?" section shows a "Yes" response. The calendar view includes a weekly grid, a "Create" button, and various navigation and filtering options. The Windows taskbar at the bottom shows the date as 28-02-2024.

Objective:

The collaboration between the Centre for Folklore Studies and Research (CFSR) and Sonamukhi College, as outlined in the Memorandum of Understanding (MoU) signed on April 16, 2024, represents a commendable initiative aimed at advancing folklore studies and research. Folklore, being an integral aspect of cultural heritage, deserves attention and preservation to ensure its continuity across generations. This collaborative effort underscores the recognition of the importance of folklore in maintaining cultural identity and heritage of Bankura district.

Centre for Folklore Studies and Sonamukhi College, Bankura, have recently signed a Memorandum of Understanding (MoU) to collaborate on various activities pertaining to the folklore of the Sonamukhi region. Together, we have documented the Sonamukhi Mela, with active participation from students of the college.

Outcome:

In these three days, we experienced and gained a wealth of knowledge. This fieldwork proved to be comprehensive in bridging the gap between theoretical and practical studies.

i) Prof. Lakshminarayan Satpati, Professor & Director UGC-MMTC (Formerly HRDC) University of Calcutta

ii) Mr. Debashis Sen, IAS (Retd.), Sr. Fellow, SAIARD, SDG Div.& Former Addl. Chief Secretary, IT Department, MD at HIDCO & Chairman, NKDA, Govt. of W.B.

iii) Dr. Dipankar Saha, Nodal Officer, NCAP, Bihar State Pollution Control Board Expert Member EAC & Additional Director (Retd.) Central Pollution Control Board, Delhi

iv) Dr. Abhisek Saha, Assistant Professor & Head, Dept. of Geography, Chatra Ramai Pandit Mahavidyalaya, Bankura University

Objective:

Wetlands are often referred to as the kidneys of the environment due to their crucial role in regulating water and filtering pollutants from the landscape. Wetlands generally refer to areas that are intermediate between terrestrial ecosystems and aquatic ecosystems. Wetlands not only regulate the water cycle, but also regulate the carbon and nitrogen cycles and control floods by holding rainwater, as well as providing food and energy. At present, urbanization, expansion of agriculture, establishment of industries, indiscriminate fishing, killing of birds, chemical fertilizers used in agriculture, various waste materials, polluted water from mills mix in the wetland and disrupt the ecosystem of the wetland, resulting in the degradation of the environment. It upset the balance, which has made future generations and the lege environment unstable. The main objective of organizing the seminar is overall conservation and restoration of wetlands to improve the biodiversity and ecosystem of the wetlands, to enhance the desired water quality. It is hoped that through the discussions. We can send a message regarding the importance of wetland and its conservation to the local people. As our participants are students, teachers and local people so, they can accelerate the campaigning in a wide range.

Outcomes:

The outcomes from the national level seminar on "Wetlands and Environmental Sustainability: A Future Projection held on April 22, 2024, likely covered a range of important topics and discussions. Here are some potential major outcomes:

1. **Awareness and Education:** The seminar likely emphasized the importance of wetlands in maintaining ecological balance and highlighted the need for public awareness and education on wetland conservation.
2. **Ecosystem Services.** The discussion likely underscored the diverse ecosystem services provided by wetlands, such as water purification, flood regulation, and biodiversity, conservation. Emphasizing these benefits can help garner support for wetland conservation efforts.
3. **Climate Change Resilience:** Given the increasing threat of climate change, there may have been discussions on how wetlands, can contribute to climate change resilience through carbon sequestration, shoreline protection, and adaptation strategies
4. **Community Engagement:** The seminar might have highlighted the importance of involving local communities in wetland conservation efforts, recognizing their traditional knowledge and stewardship practices Community engagement can foster a sense of ownership and responsibility towards wetland conservation
5. **Research and Monitoring** Participants may have emphasized the need for continued research and monitoring to better understand wetland dynamics, threats, and management strategies. Investing in scientific research and data collection can inform evidence-based decision-making
6. **Public Private Partnerships.** The seminar might have explored opportunities for public-private partnerships in wetland conservation, leveraging resources and expertise from both sectors to achieve shared conservation goals.

These outcomes would likely contribute to shaping future initiatives and strategies for wetland conservation and environmental sustainability

At present, urbanization, expansion of agriculture, establishment of industries, indiscriminate fishing, killing of birds, chemical fertilizers used in agriculture, various waste materials, polluted water from mills mix in the wetland and disrupt the ecosystem of the wetland, resulting in the degradation of the environment. It upset the balance, which has made future generations and the environment unstable. The main objective of organizing the seminar is overall conservation and restoration of wetlands to improve the biodiversity and ecosystem of the wetlands, to enhance the desired water quality. It is hoped that through the discussions, we can send a message regarding the importance of wetland and its conservation to the local people. As our participants are students, teachers and local people so, they can accelerate the campaigning in a wide range.

A Brief Report on Local Excursion at Sonamukhi Forest and its Surrounding

Organized By: Department of Botany, Sonamukhi College, Sonamukhi, Bankura

Purpose: Excursion is an essential part to complete Botanical study. The conception obtained through text books get matured and full form by studying nature in-situ. Knowledge can also be obtained about the geographical distribution of different types of plants, their proper habit, influence on surrounding environment. In the syllabus of practical papers, Marks have also been allotted for collection of specimens from fields after proper observation and studies.

Target student: SEM III (Botany Hons. and Prog.)

PLACE: Sonamukhi Forest and its Surrounding

DATE: 08.12.2023

Duration: 11 a.m. – 3.00 p.m.

Student Strength: 17

Present: 09

Teacher guide: Dr. Partha Sarathi Das, Dr. Dipak Kr. Hens

Description: We reached sonamukhi forest by 11.00AM. Sonamukhi forest area is dominated by sal plant. Beside sal plant this forest rich in different types of many angiospermic plants and lower group plants. Students are guided how plants in natural condition can be studied. They observe different plants in natural condition, their habit, habitat etc. They gather knowledge about Fungi, Lichens, Algae, Bryophytes, Pteridophytes, Gymnosperms.

PLACES TO VISIT NEAR GANGANI

A popular attraction at Gangani Danga is the Manglapota Raj-Bati. It is 10km far away from Gangani. If we trace the history of it, Samsher Bahadur established practically a new ruling dynasty of his own at Bagree Rajya in 1720 A.D. He named the dynasty as Layek Dynasty. After he exited the tyrant's rule, now absolutely an independent rule was established by him. He ruled for about twenty-four years. New capital was established at Manglapota where a new Rajbati was also constructed. Since then, this new ruling dynasty has been living in this place. The famous Mantraputa Tarabari can still be found in this Manglapota Rajbati.

FIELD SURVEY REPORT

There is no denying that outcome of a survey report depends on the size of sample and the skill of the investigators. Due to time constraint our student participants have succeeded to cover only 20 households. For collection of data two or three students together had formed a group. Students have used a specially prepared schedule or questionnaire for the collection of the relevant data under the guidance of the college teachers. Most of the students have their first-time experience in this regard. Keeping in mind all these constraints we have tried to put forward the information gathered by the students in brief in the following three major heads, namely Population and Education, Income and Occupation and Quality of life.

POPULATION AND EDUCATION

The statistical analysis on population has an important role in any socio-economic study. This study is more important when it is based on grass-root level. Demographic analysis is needed not only to find out merely the number of populations, age and sex distribution but also it helps to find out the number of the working force, the number of school-going and non-school going ratio and finally to know the family type and family size. Here we have tried to mention the followings keeping in mind all the constraint mentioned earlier.

CONCLUSION

The excursion ended in a happy note and every member of it enjoyed the whole tour to their heart's content. Moreover, most of the students went for the first time in Gangani and its neighbour areas without their parents. This scope gave them an opportunity to face and handle various situations.

Not only that, through the socio-economic survey most of the students first time acquired the knowledge of social or public issues and situations. This in turn helps them to come up with crucial findings, analysis and subsequent interpretation of the result.

This excursion was hundred percent successful and will remain evergreen in the memory of all of us.

OUR EDUCATIONAL TOUR

Travelling is also an education about the outside world. It gives us the real sense about the outside world, People and things. The most important thing in our life is education there are many thousands of ways to find it, from them the most important two ways are books and travelling. Our college arranged a small educational trip to Harbor Surgical Accessories Company for us. Our respected teachers took us to nearby industry to explain how a industry runs in a real and practical way. Our teachers gave their best to make our journey successful and comfortable. Hope this journey will help in our future life.

By – Students of Sonamukhi College

CONCLUSION

In conclusion, the educational tour of the surgical accessories company provided invaluable insights and practical knowledge that will undoubtedly benefit participants in their academic and professional pursuits. Through firsthand exposure to state-of-the-art equipment, manufacturing processes, and industry standards, attendees gained a deeper understanding of the intricate workings of the surgical accessories sector. Moreover, interactions with experts and professionals within the company offered valuable networking opportunities and potential avenues for future collaboration. The tour not only enriched participants' theoretical knowledge but also fostered a sense of appreciation for the complexities and innovations within the field. As they return to their educational institutions and workplaces, participants carry with them a wealth of experiences and perspectives that will undoubtedly shape their future endeavors in healthcare and related fields. Overall, the educational tour served as a catalyst for personal and professional growth, inspiring a new generation of individuals committed to excellence and innovation in the realm of surgical accessories.
