TO WHOM IT MAY CONCERN

Initially, during SSR preparation, the numbers of pass-out students for all the five assessment years were given against the metric 2.3. This happened because the guidelines in the SOP were not checked properly. However, we did not find any difference in the figures in data template for 2018-19 and 2015-16 and HEI input in DVV portal for the Extended profile 2.3. Actually, we did not provide any data for the year 2015-16.

Now, according to SOP, those data have been replaced by the total numbers of students registered in the final year for all the programs for all the five assessment years. A detailed list of final year students (year-wise and for all the five assessment years) is provided in the supporting documents for the metric 2.3. It has been checked properly that the new inputs against the metric 2.3 exactly match with the number of students in the said list.

TO WHOM IT MAY CONCERN

Academic Year	No of student in final year class	No of students appeared for University exam	No of students passed in the University exam
2016-17	432	435	250
2017-18	342	338	213
2018-19	479	478	202
2019-20	558	542	394
2020-21	484	553	519

Note: Backlog students in the final year exam in a particular year are not considered as regular students for the next academic year. But some of them appeared in the University exam in the next years. So, the numbers of appeared students in some academic year (2016-17 and 2020-21) are greater than the number of students in the final year class in the corresponding academic years.
