If yes, give a brief description and a list of modules currently operational (maximum 500 words)	<p>Management information system has a key function for academic and related activities. The MIS (Management Information System) which has been successfully designed in the college for the purpose of college administration where it can provide suitably detailed reports in consistent, accurate and timely manner with a view to smooth functioning or management of the college. For this, proper systemic documentation is very much essential now in urgent need. It helps to summarize the information which is available at fingertips to make rapid decision. A comprehensive structured set of data having all information related to students' activity in academic and nonacademic fields is now very much exigent. Information such as students' several merit lists at the time of admission current admission status, admission fee summary report etc. are all operated by management information system. Students are taking admission through online mode. Application forms for admission and all relevant information are uploaded in the website. Students are categorized on the basis of gender, caste, differently abled, General, Honours etc. Students are also benefitted from Kanyashri project run by the State Government. Moreover, matters related to result of students, divisions obtained, students' availing</p>

institutional concession obtained, stipend obtained from the State Government and the Central Government, etc. are all controlled by Management Information System. The MIS has a function like library books lent, reminder for last date of depositing the lent books and list of defaulters. Moreover, the database includes the upto date status of PF including interest received /salary certificates etc. which are very much beneficial to the staff of our college. Besides, conducting of meetings with teaching, nonteaching staff members also provide absolutely vital information to the management system. These actionable data having practical value certainly help the administration as well as any stakeholder right from students to Governments. In this regards administrative authorities can build opinion and undertake any decision needed.

## Part B

### **CRITERION I – CURRICULAR ASPECTS**

#### **1.1 – Curriculum Planning and Implementation**

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

The CBCS (Choice Based Credit System) syllabus has already been introduced from the academic session 2017-2018 under the present affiliating Bankura University. The curriculum is running readily in the present session 2019-20 and the efforts are being made to make the system more fruitful and successful. Formulation of new curricula and course structure is made by Bankura University as per the latest UGC guidelines of Choice Based Credit System. To make the curriculum more worthy under the purview of the UGC syllabus guidelines as consulted with eminent educationists, the UGBS members from our college in different disciplines provided their valuable modifications and suggestions. The syllabus has mainly two different courses namely honours and programme course. These two courses have different sections like - 1) core course 2) AECC - Ability Enhancement Compulsory Course 3) SEC- Skill Enhancement Course 4) GE- Generic Elective 5) DSE- Discipline Specific Elective. At least one modern Indian Language course and Environmental Studies has to be studied by student for 1st semester. All Humanities and Social Sciences students need to study English Language. The institution has the facility of all the Arts, Science and Commerce streams. The present semester is divided into two timeframe- 6 months per semester. A 'master- routine' is prepared by our college with all the possible combinations of subjects taught in any given semester. The students achieve success as the curriculum is designed through effective disbursement by the faculty. Workloads are also balance by distributing theory and practical classes. The college has a sharp vigilant eye while distributing loads keeping in mind the University recommended course schedule and the credits prescribed therein. ICT tools have also a pivotal role in very recent days. ICT tools like common Email ids, WhatsApp groups are being used to send study materials and to

share links for taking classes over Google-meet platform and also for assessing the assignments as given to the students. Field works, survey etc. are carried out on a regular interval. As a whole the college functions in conformity with the University following all regulations and guidelines provided.

(maximum 500 words)

#### Feedback Obtained

Feedback is very much essential for the different stake holders of education, students, parents, alumni etc. and also for the actual evaluation and development of any organization. A structured questionnaire has been designed for students' feedback covering all the portion of the college and overall matters to collect the students' feedback. It was supplied to the ex-students who have their better knowledge and experience when they studied in this institution. This year IQAC has taken initiative to collect and analyzed various kind of feedback by generating Google forms. The students submit their valuable responses without disclosing their true identity. The analyzed students' feedback satisfaction data is uploaded in the college website.

### 2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

Students' educational guidance depends on mentoring led by the faculty members of the college. It is true that it can help the students to achieve their desire. All the faculty members always guide and motivate the students. Students are also benefitted which lead them to face the ramifications of future life. The mentors are always helpful, act as an agent of students, solve academic problem of the students and provide practical feedback. Sonamukhi College is situated in rural area and therefore the students are coming from very poor families. Most of the students are first generation learners. So, academic guidance is very much needed for those students. The mentor- mentee system is recently introduced in our college. In this system each student is assigned to the academic guidance of a particular teacher of his / her department and this institution has given priority to analyse the opinion of the students which is reflected in the feedback system. According to the system the mentors, i.e. the faculty members share ideas, communicate information regarding academic affairs, earnestly follow up the students' problems, meet them in small groups and try to exhort with tentative accomplishment and suggestions. The mentor-mentee relationship is developed through phone calls, WhatsApp groups and e-mail contacts. The mentors of the students i.e. the departmental teachers whole-heartedly share their responsibility. Bonding relationship between mentor and mentee is developed. It is also to be noted that an orientation programme has been arranged at the beginning of each academic session. Newly-admitted students are very much benefitted through this programme as the teaching faculties help the students to be oriented with different subject and papers of syllabus of BKU. To clear the confusion of the students regarding CBCS system, the faculty members convince the students in such a way that it becomes finally as clear as daylight. Demographic explanation is also given to the students to clear their confusion and hesitation and to make the students understood all prescribed syllabus.

Number of students enrolled in the institution	Number of fulltime teachers	Mentor : Mentee Ratio

### 2.5.2 – Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

Continuous Internal Evaluation is one of the most important system that properly evaluates a student's merit. It helps to compare and detect the progress and weakness of a student. As a result an extra guidance can be taken for them to improve. Our college has taken steps to bring emendation by evaluating students' academic progression. Besides, the Internal Semester Examination. It helps the students most as it assesses the students' weakness which will help them to overcome. The college prescribes assignments to all students (Honours, GE, Program SEC) in each Semester. The assignments given to the students are made according to their suggestions. Questions are set based on the syllabus in the university. Some students also take part in presenting project papers and delivering short duration lecture to discover their power of articulation and appropriate sketch of thoughts. Moreover, students are also given extra opportunity for their understanding of weak points. The faculty teachers help these students to correct their weakness of their style of writing the answer script. All these activities indulge the students to assess their own performance, creativity and individuality. Besides, the college has to arrange internal assessment of 10 marks (each paper). The questions are set from the topics which are already taught in the class. These questions are very much beneficial to them because questions are suggestive to the final examination. The internal assessment marks given by the faculty teachers are forwarded to BKU portal. In this way the college has taken initiatives like CIE (Continuous Internal Evaluation) and thus engaged the students in various activities for the improvement of their learning.

### 2.5.3 – Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

The University has provided guidelines time to time and the college follows all the regulations and guidelines. Academic calendar is prepared in accordance with guidelines provided. At the beginning of each session an academic calendar is prepared mentioning list of Holidays, teaching days, admission timeline etc. This calendar is strictly followed and the calendar becomes very useful to the staffs. The college according to the University schedule gives notice of students class notice, internal assessment, registration form fill up etc. Internal examinations are held strictly without hampering the academic calendar schedule. Above all, academic events of the calendar are prepared very carefully

These chemicals or other items are used for the practical class purpose. Chemicals are properly issued for future use. For easy stirring by the pupil and teachers during practical classes, the laboratory instruments/equipment are repaired. **Library:** The library books are well stacked in bookshelves in scientific manner. The new purchased books are physically verified by the subject teachers before the books are tagged and catalogued. Pest control chemicals are applied in the library twice in a year. Binding of books (old or new) are done from time to time. Maximum 2 books are allowed to keep to students for a period of 15 days. Teachers can borrow and keep maximum 3 books for a period of 30 days. Inlibnet n-list is already connected in our library. The students and staffs get the opportunities to access the e-journals and e-books as per their choices. **Sports Complex and Sports Facilities:** The College has a big playground and well-maintained gymnasium. Weeds of the football ground are cleaned on regular basis. Stock room is filled with sports equipments which are kept under the supervision of the game teacher. Gymnasium of the college is also maintained under the supervision of the Physical education department. Cleaning and greasing of sports equipment and gym instruments are done annually. Sports equipments are purchased when required. Football, Cricket, Volleyball etc. are held regularly. **Computer:** The mending of computers and accessories are done as and when required. New computers are purchased through proper tendering and analysing them in Finance sub-committee meeting. **Classrooms:** The College has a big campus with 31 classrooms and 8 laboratories. There are two staffs for cleaning of campus and classroom. In order to keep the classroom neat and clean a strict routine of clean all the rooms twice a month is followed and maintained ritually and minutely. An electrician is engaged to look after the electrical disturbances as and when brought to the authority's notice by the departments. **Power supply:** Uninterrupted power supply is one of the best arrangements in the college. Two generators having 15 KVA AC power and 10 KVA AC power are used in case of power cut or loadshedding. When the electricity supply interrupted, the generator starts to work for the smooth conducting of administrative works as well as academic one. **Routine Surveillance:** The College is encompassed with strong CCTV surveillance for 247 hours. To monitor the unsocial activities in the college campus, CCTV cameras are installed at almost all the sensitive places. As a result undesirable activities have almost been restrained within the college premises.

5.3.2 – Activity of Student Council & representation of students on academic & administrative bodies/committees of the institution (maximum 500 words)

The formation of Student Council through election by the students could not be conducted as of now. Notwithstanding, this did not obstruct the college from conducting various extracurricular activities with the help of active participation of students. The college organizes different cultural activities through which the students flourish their hidden talent. As the college is situated in rural area, the most of students are from poor family. They did not get any chance to show their inherent capabilities and it is their platform to overcome shyness, develop confidence and the creative potential that would otherwise have remained unnoticed perhaps. To complete such extracurricular activities, teaching and non-teaching staffs of our college including the head of the institution play a significant role. The students of our college have showed their good performance every year in Youth Parliament Competition and thus they make a glorious history for the college. They performed well in both District Level and State Level competitions. It is understood clearly that all the credit goes to the head of the institution, faculties and staffs. The faculties provide them right from developing the script to selection of the students for specific roles along with providing other logistical support.

Every year college organizes cultural competition and a large number of students participate willingly. Through this active participation an automatic screening is done for the students who shall represent the institution in various inter college and other cultural competitions in future. Every year the college publishes its annual magazine. This year our college has published digital magazine. A wide range of topics from the different fields are submitted by the students and faculty members and before the final publication the writing articles are scrutinized by the magazines editorial board. As a result the magazine gives the students an opportunity to show their hidden talent beside the monotonous curriculum. The annual sport of the college is always at its best. The students of all departments take active participation. Various track and field events are organized as a part of the annual sports meet of the institution. A college football team has been formed and the team undertakes regular hard practice under the supervision of Physical Education teacher. The performance of the team is very much effective and influential not only at the University level competitions but District Level competitions also.

NSS and NCC unit of our college perform a pivotal role in various kinds of activities like arranging Tree Plantation programme, Blood Donation camp, Campus Cleaning, establishment of practice camp, visiting adopted villages, organizing seminars, creating environmental awareness programmes in villages, AIDS, Dengue and Covid-19 awareness programmes, online cultural and Quiz competitions etc.

### 5.4 – Alumni Engagement

5.4.1 – Whether the institution has registered Alumni Association?

## **CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT**

### **6.1 – Institutional Vision and Leadership**

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

It is our one of the most important practice that the college has always done the works like academic and non- academic through the collective effort. Several committees like Academic sub-committee, Finance sub-committee, UGC sub-committee, NAAC sub-committee Teachers Council etc. are formed in order to fulfil the vision and mission of the institution. Teachers Council and various sub-committees formulate working procedures and the members of the committees are entrusted with different responsibilities to ensure smooth functioning of the college. The committees of the college work and function independently in consultation with the apex body of the college. Green eco-friendly environment of the college campus is to be maintained by the NCC and the NSS unit of our college. NCC and NSS unit of the college work hand in hand to maintain a green healthy environment at our college campus. Arranging Tree Plantation programme on regular basis, blood donation camp, college campus cleaning, yoga day celebration, visiting adopted villages, drive for anti-drug, Dengue, AIDS and Covid-19 awareness programmes are some of the vital initiatives taken by the different committee members along with other stake holders of the college as mentioned above. The college conducts staff meetings from time to time and at regular intervals. These meetings are very effective and fruitful in nature. The discussions in the meeting play a pivotal role for the holistic development of the institution. Again smooth conduction of University and college examinations is another area of our participative management. For that purpose Examination Committee is formed by the Teachers Council. There is an arrangement of medical practitioner to look after any ailing examinee. At the time of examination, the college campus is always properly handled by the local administration and police personnel who are posted on duty during examination periods on request from the University as well as the college authority. There is also another example of participative management. It is when the college holds any kind of public examination on request from the local administration and Government Organizations. The teaching and non-teaching staffs of our college always extend their hands by doing the invigilation duties. So, all these are very remarkable citation for practices of decentralization and participative management.

6.1.2 – Does the institution have a Management Information System (MIS)?

Yes

### **6.2 – Strategy Development and Deployment**

6.2.1 – Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

Strategy Type	Details
Teaching and Learning	<p>At the beginning of each academic session, the faculties prepare the academic calendar of that session. Laboratory based departments provide well equipped laboratories. The departments organise seminars, webinars to encourage the students. Field study, project work, educational tours are also carried out by some departments of the college. Along with the conventional methods of teaching, Information and Communication Technology (ICT) is used in the classroom to make the teaching process more understandable and effective.</p>
Curriculum Development	<p>Development of curriculum is within the purview of the affiliating University. The University is responsible for developing and forming of the curriculum. The institution doesn't have any role to play in this regard. The affiliating University has the authority to develop curriculum. However, the college teachers who are members of the curriculum development committee of the University can put their valuable suggestions regarding the curriculum development in the subject concerned. They play decisive roles in the formation and implementation of the syllabi. As per guidelines of UGC, the University has started CBCS process through semester mode and the college has adopted the same.</p>
Examination and Evaluation	<p>Class tests as well as internal assignments at regular interval are arranged by the departments. Suggestions for further improvement are given to the students. Constant communication with the students has been maintained to solve the problems faced by them. Online assessment through email or portal is conducted by the University to expedite the publication of results. Teachers of our college participate actively in the evaluation process as examiners, scrutinizers, paper setter etc.</p>
Admission of Students	<p>Admission of students is completely conducted through online process and it is done on the basis of merit. College website gives the necessary information regarding admission of Students and at the same time application forms for</p>

admission are uploaded on the website. Submission of application, publication of merit list etc. are all done online through online process. State Government reservation policy is strictly followed. Selected reserved category students are attached separately to ensure chances for them in higher education. It is to be mentioned that online admission procedure was introduced to ensure transparency and the procedure for online admissions has been updated. Now the University registration procedure is done by using the information from application forms.

Library, ICT and Physical Infrastructure / Instrumentation

The Central Library has the brilliant function like barcode technology, Inflibnet n-list, online OPAC (Open Access Catalogue) and so on. A number of reputed journals are subscribed by the college regularly. The Central Library of the college purchases and subscribes latest books and journals every year. The Central Library also facilitates well-furnished reading room for the students. Apart from the Central Library, departmental library facilities are also available in some departments. New classrooms have been built in the second floor. New computers have been purchased for the use of the students. Internet service has also been made available.

Research and Development

Research has been considered as an integral part of the academic endeavours in our college. The college always encourages and motivates faculty members to promote research and development. It motivates teachers to carry out Minor Research Project (MRP), Orientation Programmes, Refresher courses and Workshops. It also encourages our faculty members to go for FDPS, publish papers in national and international journals of repute and paper presentations in different international and national conferences. Research committee of our college always encourages all such research activities. Over and above, different departments of our college organise seminars on different subjects related to popular interest as well as frontier areas of research.

Industry Interaction / Collaboration

At present our institution has no collaboration with any industry because

	<p>it is in a rural area and there is no such industry nearby. Though we have a training and placement cell and the members of the cell are trying their best. But still there is no fruitful outcome.</p>
Human Resource Management	<p>The institution makes great efforts to amplify the professional skills of teaching and non-teaching staffs. The human resource management is managed in a free democratic manner. The departmental teachers are encouraged to improve their academic and administrative knowledge by attending seminars, conferences, workshops, refresher and orientation courses, different short term courses and so on. At the same time the non-teaching staffs are trained for e-filing, e-pension, online admission skills etc. Besides, the Governing Body manages and develops the total human resource of the college. All those commendable activities are highly appreciated with exact credit by the authority.</p>

6.2.2 – Implementation of e-governance in areas of operations:

E-governance area	Details
Administration	<p>All activities relating to student admission are being done totally through online mode with step by step process widely circulated through college website. To make the students informed, every student-related notice is uploaded in the website of the college. It is our pleasure to have a Software CAMS (College Administration and Management System) by which important information are served among the students. Various important instructions, notices to the departments and teachers are circulated through Emails and WhatsApp group. Through the college website, necessary information is supplied for tenders and quotations for execution of any project. All kinds of activities of the college like administrative, Finance, academic, cultural, sports, admission etc. are governed by specific committees which are formed by the Governing Body and Teachers Council whenever applicable. Finance committee is formed for maintaining the financial regularity. Similarly, for any kind of purchases purchase committee is there to select the quotations for the</p>

purpose as notified by the Principal. Anti-ragging cell, Grievance Redressal cell are there for safeguarding the interest of the students. Financial audits are performed on regular basis every year.

Finance and Accounts

Finance and Accounts are the vital parts of a college. For this purpose a reputed software MSS is used in Finance and Accounts section for smooth and accurate functioning of that section. All the financial transactions of the college are recorded through that software. All the collections from the students are made by using Pay U Money gateway and all the payments to the students are done through that software. The students can download the voucher which is generated through software by using college login user id and password. Soft copies and hard copies of all financial transactions are available in that software. Claims for grants from the Government are placed by online HRMS. To maintain the PF Accounts of the employees college authority uses their self-developed module. All the salary payments to the staffs are paid directly through treasury via HRMS.

Student Admission and Support

Student admission is made through online process as per guidelines of the Government order. Admission related information of students is provided through college website. Merit lists are prepared for different subjects from among the applicants. Submission of application for admission and submission of requisite fees for admission by the enlisted students are totally executed through software and online. No physical attendance of students is necessary in college for any stage of admission process. After the completion of admission process the admitted students are registered and enrolled by the University subsequently.

Examination

From the beginning of the CBCS syllabus since the academic year 2017-2018 the examination of Bankura University is done on semester basis. The duration of each semester is of 6 months and the examination is taken accordingly. Each examination consists of two parts- Internal Assessment which is of 10 marks and Final Examination.

Arts stream students are to appear in only theory examination while the Science stream students are to appear in both the theory and practical examinations. After the evaluation of answer scripts by the teachers the final results of the examinees are calculated on CGPA basis. It is also to be noted that the affiliated Universities conduct all the Semester examinations. By using the Unitrack Portal of Bankura University, the students can easily download their admit Card, marksheet etc.

**Planning and Development**

All the key planning and developmental activities are made by the Governing Body of the college. In this regard IQAC and Teachers Council of the college also play a major role. Our college has a Planning and Development committee. For the implementation of plans and developments, Governing Body and Teachers Council are responsible. The plan of action is submitted to the Governing Body of the college as a form of proposal for its necessary approval. Governing Body approves the proposal of IQAC on those factors after considering the possibility of its execution. In case of infrastructural development, Building Committee plays the vital role while for the academic development the roles of IQAC and the Teachers Council/Academic Council are most important.

### 7.2 – Best Practices

#### 7.2.1 – Describe at least two institutional best practices

1. Title of the Practice: In the session 2019-2020 our college performs the following two as the best practices: i) Introduction of bio-metric attendance for all the teaching and non-teaching staff. ii) Introduction of online class through the college website to combat Covid-19 situation. 2. Objective of the practice: i) As it is the era of electronics, besides keeping the manual records of the attendance of the teaching and non-teaching staff, the college authority decided to keep the history of records of attendance in online by introducing the bio-metric attendance. ii) With the sudden and unexpected advent of Corona Virus Disease-19 in March 2020 in India in its peak form, the government decided to postpone the offline class in the college. As we were in the middle of the even-semester and there was every possibility of End Semester Examination in June 2020, the college authority quickly implemented online class using the college website. 3. Context that required the initiation of the practice: i) It was heard that most of the educational institutions which impart higher education, are on the threshold of putting into action the bio-metric attendance for their staff. So the teaching and non-teaching staff of our college unanimously decided to leave no stone unturned to be one of the leading institutions so far the inauguration of bio-metric attendance is concerned. So within a week the bio-metric attendance was in vogue in the college and still it is continued. ii) No sooner had the government announced the closure of all the educational institutions to hinder the spread of Covid-19 among people, the students were at their wit's end. The teaching staff started to seek an instant solution of the problem of regular teaching which arose for the pandemic situation. With the assistance of the principal of our college, the college became successful in starting the online class using college software. 4. The Practice: i) Throughout the year all the teaching staff, non-teaching staff and obviously the principal give their bio-metric attendance using fingerprint. When only manual records of attendance were kept, some of the staff had lethargy of giving attendance as soon as he/she arrived in the college. He/she would put signature after some time. As a consequence,

it would be very inconvenient for the college authority to detect whether that particular staff had come to college or not. But now as soon as one reaches the college, his/her first and foremost duty becomes giving attendance as the bio-metric attendance keeps online records of one's total spent time in an academic year in the college. ii) From the very beginning of pandemic situation, Study Materials were given through the college website by the faculties of different departments. The students would generally download the materials and prepare themselves for the forthcoming examination. The online class has been taken regularly using Google Meet following a routine prepared for taking the online classes. Later the classes is being taken without any interval, using the college website. Again regular communication with the students regarding classes, study materials, college or university notices, different academic and administrative issues, is made via the different whatsapp groups of students.

5. Evidence of success: i) The implementation of bio-metric attendance in our college brought a wave of success. It surely added a feather to the crown of success of Sonamukhi College. Our college sets an instance in front of other colleges by cordially accepting the challenges of new technology. ii) The students accustomed themselves with the online class within a few days of its introduction. They can repeatedly hear or view the online recorded class and as a result they also can clearly understand the portion that remained vague while heard or viewed for the first time.

6. Problems encountered and resources required: i) With the introduction of bio-metric attendance, some senior faculty members and few non-teaching staff encountered the problem of putting fingerprint in the machine. However the regular practice for a week made them efficient in that field. Now they put their attendance within a second. ii) Though at the outset the students had enough difficulty in using college software for Study Materials and online classes, they became habituated within five or six days of its execution. But again another problem arose. As most of the students of our college belong to the remote rural areas of Bankura district, many of them face the problem of good network connectivity. On the other hand, it is also a bitter truth that some of the students, if not all, badly fail to buy data pack for attending the online classes. If college provides the cost of data pack of the needy students, they will be benefitted.

Upload details of two best practices successfully implemented by the institution as per NAAC format in your institution website, provide the link

### 7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

This higher education institution is entrusted with the strong and outstanding vision to cater higher education for a large number of students coming from rural and backward region of the adjoining areas of the college. Most of the students coming from these rural regions represent the poor or lower middle class families with weak economic base and considerable number of them are first generation learners. As against this background of the students the college is strongly furnished with a good number of highly qualified, responsible and co-operative teaching and office staff. The Teachers are keen to give their best to explore the quality and capabilities of the students for the sake of generating a continuous stream of efficient human resources which can combat the socio-economic backwardness and ensure sustainable development for the region. The college takes special care to provide them strong support. With the changing situation due to global outbreak of COVID-19 since January, 2020 and consequent lockdown as announced by the Government of India since the last week of March, 2020, we have been passing through a crucial period.

Periodical observations of lockdowns have made us more adaptive towards the online activities of the college, both academic and administrative. Although at the initial stage of this academic year students got the opportunities for attending classes physically but during the later stage the college had to make provision for virtual classes for them. The teachers had to take their classes virtually through on-line Google meet platform. The college website has been restructured and teachers are able to upload the study materials for the students at the specific location in the college website. Such student teachers interactions were made in on-line mode even through Whatsapp group. The webinars are arranged at regular intervals by different departments of the college, where staff and the students got the unique opportunities to participate staying at their home. Examination through on-line mode is also another adaptive feature at the moment to avoid COVID-19. Students get the opportunities to download their question papers through their individual login IDs from the University portal as well as college portal and sending their answer scripts to that portal in soft copy form within the scheduled time limit, as determined by the University. Evaluation of those answer scripts is done by the teachers through on-line mode with subsequent uploading of marks in the University portal for future publication of result. The students' feedback is now being received by the college through on-line mode. The collection of fees from the students is now done through on-line mode through specific payment gateway in the bank. The college official works are now running through CAMS software (College Administration and Management System).

#### **8.Future Plans of Actions for Next Academic Year**

1. Introduction of new UG courses, 2. Parents Teachers meeting, 3. Construction of more class rooms, 4. Introduction of Certificate or Diploma course in near future, 5. Organize seminar/Webinar on IPR, 6. Student counselling during Covid-19 pandemic situation, 7. Purchase of land to improve sports facility. 8. Shifting of library to a more spacious place.
